Could you ever make a living
In this valley made of sand
Where the sun has dried the water
In the palm of your hand?
You can search in vain for a patch of green
In this land so parched and dry
And pray to God for the rain to fall
From the blue and cloudless sky

CHORUS:

Here's a cry of help for everyone
All around the world
In every single corner
Let the banner be unfurled
Let it spread the special message
Like the cry of the wild
Let peace be the music
To the ear of the child

In a war-torn jungle;
Small child stands alone
No food, no help, no parents;
No place to call a home
He will walk for days with others
To a place they hope to stay
And keep that hope within his heart
They won't be turned away

In a cold and windy city
In England's pleasant land
There's one who sleeps out in the street;
She needs a helping hand
Please don't turn or pass her by,
Or look the other way
Tomorrow may just be too late;
She needs your help today
